Launch Checklist

Product Build

- ☐ Confirm exact buyer, occasion, and product format.
- ☐ Create or revise the full interior based on the scorecard recommendation.
- ☐ Export a print-ready PDF and inspect margins, bleed, page order, and blank pages.
- ☐ Create a short sample preview for organic testing.
- ☐ Save source files in Drive with versioned filenames.

Marketplace Readiness

- ☐ Check title, subtitle, author name, and series naming for policy and trademark risk.
- ☐ Confirm listing copy matches the actual product.
- ☐ Review category, keyword, and metadata choices manually.
- ☐ Avoid claims about guaranteed sales, rankings, reviews, therapy outcomes, income, or platform approval.
- ☐ Confirm any AI-generated or Canva-sourced visuals follow the applicable license terms.

Organic Demand Test

- ☐ Publish one static landing page or product preview page.
- ☐ Share one free sample link with tracking.
- ☐ Post three value-first organic posts without spammy claims.
- ☐ Track visits, sample clicks, checkout clicks, buyer questions, and refunds.
- ☐ Improve, clone, or stop based on observed behavior.

Decision Rule

Keep or improve if there are sample clicks, checkout clicks, sales, or specific buyer questions.

Clone only after real signal. Do not clone a niche just because the score looks strong.
